China (Chengdu) New Energy Int' l Forum & Fair 2010

Time: Sep. 28, 2010~Sep.30, 2010
Venue: Century City New Int' l Convention
& Exhibition Center, Chengdu, China

A Wonderful Platform for
Acquaintance with Governmental Officials, Experts &
Business Giants,
Exhibition of Products, &
Exchange of Updated Information

CDNEE

中国(成都)新能源国际论坛暨展览会
China (Chengdu) New Energy Int' l Forum & Fair

Invitation

Dear Mr./Ms. Limsey Maness JR

It is a shared belief globally now that by focusing on the growth of new energy industry, we could drive economic momentum, achieve a strategic highland in future growth prospects and accomplish a low-carbon lifestyle. In the Copenhagen meeting held in December 2009, State Department of China made a specific quantitative objective to cut GDP carbon dioxide emission by 40-45% by the year of 2020 as compared to 2005. Also, in the government report during the NPC and CPPCC in March this year, it clearly proclaims that: as one of the 6 major industries crucial to the country's future, the new energy industry will see significant growth, spurred by full supports from the treasury, finance and industry policy making institutes. Against this backdrop, the new energy industry promoting plan of China is about to surface, and we will see a year of prosperity in new energies in 2010.

To take a firm grip on the opportunities arising from the central government's commitments to expedite development of new energy industry and a low-carbon economy, Chengdu is as such a vast big central city in Western China exerting full efforts to build "the National New Energy High-tech Industry Base of Chengdu, Sichuan", and "the National New Energy Machinery & High-tech Industrialization Base of Chengdu". Furthermore, the city published the New Energy Development Planning of Chengdu (2009-2012) in December 2009 which is focused on the development of new energies like solar power, nuclear power and wind power.

And in order to establish a specialized top-level quality platform of international influence for communications and cooperation in new energies, Chengdu government staged the new energy int'l forum in 2008 and 2009 respectively which has now become the largest, and most significant, specialized and influential meeting in new energy industry in western China.

New Energy Int'l Forum Chengdu China 2010 (hereinafter referred to as the Forum) is scheduled from September 28th to 30th, located in the Century City New Int'l Convention & Exhibition Center, Chengdu, China. The Forum themed New Energies, New Opportunities . Featuring solar power, wind power and nuclear power exhibition halls, this convention is dedicated to offering a venue for communications and collaborations among businesses, R&D institutes, academic organizations and investment & financing institutions as well. By estimate, government officials, professionals, scholars, and representatives of new energy businesses from more than 20 countries globally will convene together with approximately 1,500 meeting representatives and over 10,000 audience members.

We will provide you updated authoritative policy and extensive marketing resource, show you the frontier science and technology, elaborately-built cooperation platforms and robust policy support will be available.

We will feel honored by your presence!

Organizing Committee, China (Chengdu) New Energy Int' l Forum
Jan. 2010

Organizational Structure :

■ Sponsored by

Chengdu Municipal People' s Government
United Nations Development Program
Chinese Renewable Energy Society
Chamber of New Energy, All-China Federation of Industry and Commerce

■ Facilitated by

Brandenburg Economic Development Board
Chinese Renewable Energy Industries Association
The Chinese Society of Theoretical and Applied Mechanics
The Chinese Society of Electronic Semiconductor Materials
China Aeromechanics Society, Wind Power & Aeromechanics Branch
China Nuclear Energy Association

■ Organized by

Chengdu Convention & Exhibition Promotion Office
Chengdu Municipal Economic Commission
Chengdu Investment Promotion Commission
Chengdu Science & Technology Bureau
Foreign Affairs Office, Chengdu Municipal People' s Government
Shuangliu County People' s Government

■ Supported by

China National Committee for Pacific Economic Cooperation
The International Cooperation Center of the National Development and Reform Commission
United Nations Industrial Development Organization
American Council on Renewable Energy
European Council on Renewable Energy
European Photovoltaic Industry Association
Japan Council for Renewable Energy
The German Chamber of Commerce
The EU Project Innovation Centre (Chengdu)
Low Carbon Technology and Economics Research Center of Sichuan University
North China Electric Power University
China PV Products Quality Supervision and Examination Center
China New Energy Industry Technology Research Institute
School of Energy Research, Xiamen University

■ Supported especially by:

TIANWEI Group
China National Building Material Group Corporation
China Eastern Electric Group
HANERGY Group
TONGWEI Group
Hi-Tech Wealth
Sichuan Apollo Solar Science & Technology Development Co., Ltd.,
Sichuan Xinguang Polysilicon Engineering & Technology Co., Ltd.,
Nuclear Power Institute of China
Southwestern Institute of Physics
Sichuan Chuankai Electrical Co., Ltd.,

Agenda

China(Chengdu)
New Energy Int'l Forum & Fair

New Energies New Opportunities

ACTIVITY	TIME	VENUE
Preparation	Sep. 25~26	Century City New Int'l Convention & Exhibition Center
Registration	Sep. 27	West Building Hall, Holiday Inn Century City Chengdu
Opening Ceremony & Main Forum	Forenoon, Sep. 28	Century City Pride Int'l Convention Center
New Energy Entrepreneur Summit	Afternoon, Sep. 28	Century City Pride Int'l Convention Center
Presidential Conference of ACFIC Chamber of New Energy	Afternoon, Sep. 28	Century City Pride Int'l Convention Center
Entrepreneur Forum on Photovoltaics & Photothermodynamics	Afternoon, Sep. 28	Century City Pride Int'l Convention Center
Analysis into the Development of Photovoltaic & Photothermal Technologies & Industries	Forenoon, Sep. 29	Century City Pride Int'l Convention Center
Nuclear Power Industrial Developing Forum	Forenoon, Sep. 29	Century City Pride Int'l Convention Center
Wind Energy Industrial Developing Forum	Forenoon, Sep. 29	Century City Pride Int'l Convention Center
Chengdu-Brandenburg Forum on the Technologies of and Investment in New Energy & Environment Protection	Forenoon, Sep. 29	Century City Pride Int'l Convention Center
Investment & Financing Forum	Afternoon, Sep. 29	Century City Pride Int'l Convention Center
Intelligent Power Grid Industry Development Forum	Afternoon, Sep. 29	Century City Pride Int'l Convention Center
Solar Energy Fair	Sep. 28~30	Century City New Int'l Convention & Exhibition Center
Nuclear Power Fair	Sep. 28~30	Century City New Int'l Convention & Exhibition Center
Wind Energy Fair	Sep. 28~30	Century City New Int'l Convention & Exhibition Center
Visit	Sep. 30	National Energy Industry Base: Shuangliu Southwestern Airport City Economic Development Zone

(SUBJECT TO CHANGES)

Previous Review

China (Chengdu) New Energy Int'l Forum & Solar Energy Fair 2009, co-sponsored by United Nations Development Program, Chinese Renewable Energy Society and Chengdu Municipal People's Government, has closed in success. Focusing on the theme "The Opportunities & Challenges of New Energy Industry", the forum was rolled out in one main forum and four parallel forums and attracted, from nine countries, 180-odd experts, 700-odd attendees, 300-odd new energy enterprises, 118 business executives and 80-downward corporate exhibitors and 26 thousand visitors, making the most widely recognized new energy event in western China in terms of scale, rank, professionalism and influence.
